PROFESSIONAL EXPERIENCE

FRONTEND DEVELOPER

Samolet | St. Petersburg, Russia | December 2022 – Present

Within the team I developed several financial applications for the company such as covenant tracker, tasks tracker, HR tracker, applications. I was working on them from the scratch. We use Scrum methodology. In the team there is one or two front-end developers. I am responsible for the new features development using Figma designs, communication with the team, fixing issues and providing quality product by the end of the sprint. Tech stack: React 17, 18, TypeScript, SCSS, MobX, AntDesign library, REST, Git, Figma.

FRONTEND DEVELOPER

DataArt Solutions | St. Petersburg, Yerevan | June 2019 – December 2022

React application development for game developing company. Working on architectural solutions. Providing end-of-sprint demos. Communicating with the customer. Investigating & fixing issues. Tech stack: React, JS, SCSS, HTML, Jira, Git, REST API.

FRONTEND DEVELOPER

MTS | St. Petersburg, Russia | Aug 2017 – Apr 2019

Developed SPA application on Angular for operators that served customers in shops. Created several critical web-components, including bank integration, swiper, and comments. Tech stack: Angular, TS, JS(ES6+), SASS, npm, gulp, Git, webpack, REST API.

WEBMASTER

Technosila | St. Petersburg, Russia | Jan 2017 – Aug 2017

Interface elements development for the online store, product landing pages, website pages, and email newsletter. Participated in developing credit-broker interface in mobile site version. Tech stack: HTML, LESS, jQuery, gulp, npm and yarn.
